

About  
**weListen**

# Our Operating Principles

## **UNDERSTAND**

your needs through true listening

## **DESIGN**

solutions that suit your business

## **GET INVOLVED**

in a process of meaningful collaboration

## **DELIVER WHAT YOU NEED**

without the burden of what you don't

# Consultancy Services

We proudly partner with our clients to catalyse the development of their organization's competencies, exploring their potential with our consulting and facilitation services.

- ✓ Enterprise Innovation Management
- ✓ Collaboration and Participation infrastructures
- ✓ Knowledge-based and learning-based management

Our tailored action-focused interventions are designed to ignite, develop and sustain systems that explore your company's distributed intelligence.

# Collaboration Technologies

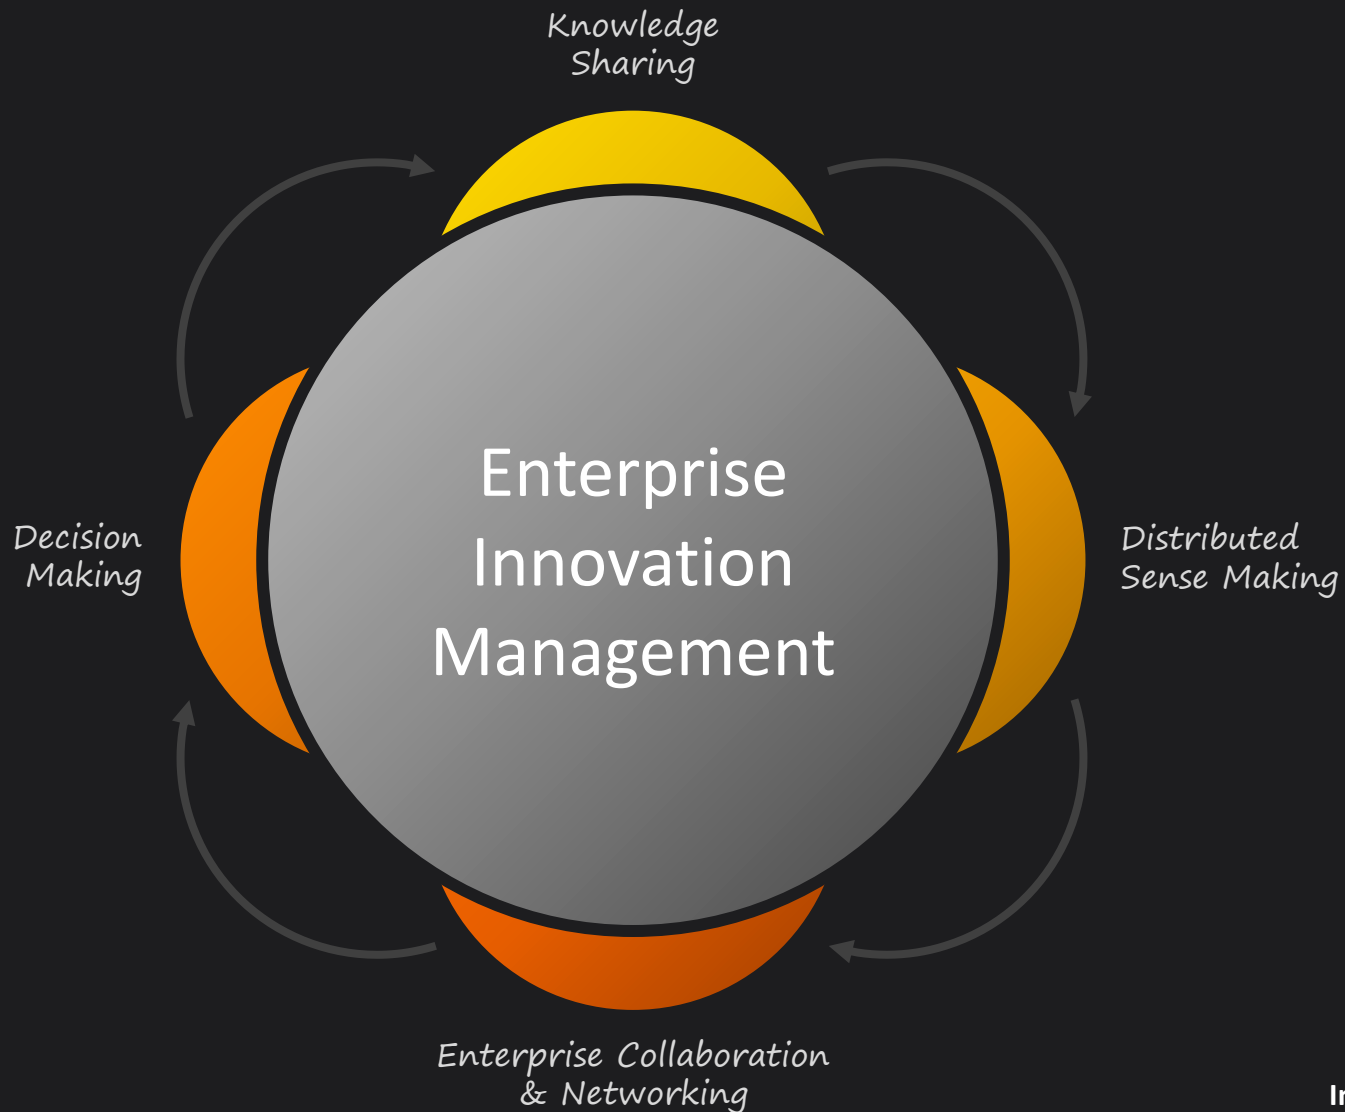

To equip you with the best-of-breed collaboration solutions, we partner with **Telligent**, a visionary for social software in the workplace.

Telligent has an impressive history of firsts and a proven track record powering more than 3,000 of largest and most demanding communities in the world.

We also provide tailored development services, to adapt our solutions to your business, aligning them with your company's identity.
